

DHANUSH

Software Engineer & Full Stack Developer | ghanush@resumeai.com | Chennai, India

SUMMARY

Highly motivated Full-Stack Developer with hands-on experience in Python, Flask, and web technologies. Passionate about building responsive, secure applications and integrating intelligent features like AI-powered analysis and SQL database systems.

EDUCATION

Bachelor of Engineering in Computer Science (B.E. CSE)

Anna University, Chennai | CGPA: 8.5/10 | Graduation Year: 2026

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL, HTML5, CSS3

Frameworks & Tools: Flask, SQLite, Node.js, Git, Gunicorn, RESTful APIs

Development Concepts: User Authentication, Database Design, Responsive Web Design, AI Integration

PROJECTS

ResumeAI — Smart Resume Analyzer

- Developed a secure, multi-page web application using Flask and SQLite to analyze resume PDFs.
 - Built an automated ATS score system, identifying skill gaps, matching job roles, and estimated salary packages.
 - Created a glassmorphic admin dashboard for exclusive database access and user profile monitoring.

Personal Portfolio Website

- Designed an interactive portfolio using HTML, CSS, and modern animations to showcase projects.
 - Optimized visual load speeds and page structure for enhanced search engine optimization (SEO).
